## **A look outside my window**

1. Take a picture of one of your windows.
2. Write a text about the view from your window.  
Write about what you can see. You should also write about what you can hear and feel.  
There is example on the following page.

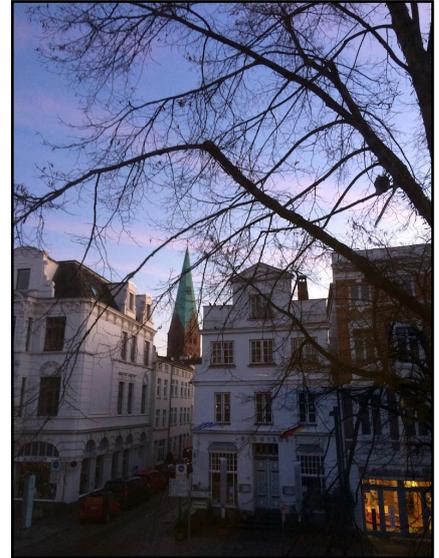

## A look outside my window

This is the view from my window.  
The photo was taken in the evening.  
It is quite dark outside.  
I shot the photo from my living room.  
I'm on the first floor.  
I picked this particular window because it has the best view.

My window faces other houses.  
From my living room window I can see a restaurant.  
In the background there is a church.

Right now I can hear cars driving by.  
It is not very noisy outside because it is late.

Right now I feel happy.  
The sight of the sunset makes me feel good.
